Waiting for the light to change from red.  
Thinking over all the things you said to me,  
you said to me.

All your dreams are dying in the sun.  
Pretty soon there'll be nowhere left to run away,  
to run away

Packed your bags to leave by the morning  
Destination far off and foreign  
It's now never or now x2

Baby won't you take me  
Baby won't you take me  
with you, with you  
Baby won't you take me  
Baby won't you take me  
with you, with you

Cause I don't wanna be alone tonight.  
I don't wanna be alone tonight  
Baby won't you take me  
Baby won't you take me  
with you, with you

Memories of a life I leave behind  
Take a souvenir to remind me of, the ones I love

Feel my heart it beats like a stopwatch  
Running out of time with each tick tock  
It's never or now

Baby won't you take me  
Baby won't you take me  
with you, with you  
Baby won't you take me  
Baby won't you take me  
with you, with you

Cause I don't wanna be alone tonight.  
I don't wanna be alone tonight  
Baby won't you take me  
Baby won't you take me  
with you, with you
