Tiësto drops off his newest summer ready house anthem "Take Me" featuring vocalist **Kyler England**. Tiësto delivers a smooth change of a pace from his bass heavy festival bangers. He gives us a trance influenced progressive house track powered by a strong piano line seamlessly colliding with Kyler's incredible voice. It's refreshing too not hear a bass heavy banger from Tiesto. This is the first track on his upcoming *Club Life Volume 3: Stockholm*. You can grab purchase this track through Beatport now. Enjoy!
